

*Painting is my passion and has been ever since I could hold a brush. Through it, I experience unity with a greater creative force, and from that union, I have gained a sense of purpose and meaning to life that now, I cannot imagine being without. My intention, in creating art, is to reveal the extraordinariness of the ordinary world, that often is overlooked or taken for granted.*

*The rugged landscape surrounding our studio is ideal for observing everyday miracles and it suits our temperaments perfectly. It offers the privacy we require, and inspires the creation of our art. It was from here, that we first realized our lives and our art were embracing, and so we named our studio Embrace Art.*
